Entered at the Perryburg Postoffice as second class matter.

THIS JOURNAL is dated Friday, but the paper goes to press every Thursday afternoon at 5 o'clock, in order that it may reach the readers in various localities by Friday morning.

Long Distance Telephone No. 21.

FRIDAY, - AUGUST 30, 1901.

SPECIAL NOTICE.

Copies of this paper may be found on file at Washington in the office of our special correspondent, E. G. Siggers, 218 F street, N.W., Washington, D.C.

REPUBLICAN STATE TICKET.

For Governor, GEORGE K. NASH, of Franklin. Lieutenant Governor, CARL L. NIPPERT, of Hamilton. Supreme Judge, JAMES L. PRICE, of Allen. Attorney General, JOHN M. SHEETS, of Belmont. Clerk Supreme Court, ISAAC B. CAMERON, of Columbiana. Board of Public Works, W. G. JOHNSON, of Summit.

COUNTY TICKET.

For Representative, C. R. PAINTER. For Treasurer, F. E. MUNN. For Prosecuting Attorney, ELMER G. MCLELLAND. For Surveyor, ELMER L. SPAFFORD. For Commissioner, W. W. LONG. For Infirmary Director, A. T. HICKERSON. For Coroner, W. L. MATHERS.

The converted cruiser Mayflower, which has been employed as a station ship in Porto Rican waters during Governor Allen's regime there, will be placed out of commission shortly. The department does not consider that it will be necessary to replace the Mayflower with another ship, and hereafter the governor of Porto Rico will not have a warship at his disposal.

The Alaska gold output this year will probably be disappointing. Last year the receipts at Seattle of gold dust amounted to about \$24,000,000, the bulk of it coming in during the Summer and fall. The June receipts last year were \$1,129,154, and the June receipts this year only \$66,639. The July receipts last year were \$6,351,065, while the July receipts in 1901 were only \$3,749,313.

The Treasury Department has decided adversely to the contention of the Porto Ricans that the proclamation of the President, declaring free trade with their island, did not affect the imposition of the 5 cents import tax on coffee. The Solicitor of the Department thinks the case one of inadvertence by Congress, but regrets that he can see no way of evading the plain sense of the case.

Sugar planters of Hawaii have lately used efforts to secure a modification of the Japanese edict so that men from that country may be allowed to go to Hawaii. Assistant Secretary Taylor, of the Treasury, recently told the Japanese Minister that desirable Japanese persons will be allowed to go to Hawaii freely, provided that they do not go under contract, either verbal or written, as laborers.

Coal exportations from the United States during the fiscal year just ended, as shown by the Treasury Bureau of Statistics, amounted to \$22,317,495, against \$19,502,813 in the fiscal year 1900, \$13,061,025 in 1899, \$11,008,643 in 1897, \$10,646,062 in 1896, and \$8,391,062 in 1891. Thus the value of coal exportations from the United States has doubled since 1897 and nearly trebled in the decade. Measured by quantity the increase has been even greater, the exports in 1901 being 7,676,149 tons, against 2,339,039 tons in 1891, thus making the total exports of 1901 in quantity more than three times as much as in 1891.

A professional trainer of children act robots in telling of the latest methods employed in the work says that along with the physical training necessary for the perfect accomplishment of the difficult feats to be performed, there are a certain number of hours given to the study of school books each day, and he says it is truly wonderful to note the amount of mental work these young athletes are capable of doing. He believes the physical training, by its system of keeping every muscle and nerve in fine development and condition is the prime reason of the wonderful capacity of mental work among these children. This is an argument in support of the recent innovation made in our public schools in the addition of physical training to the usual school work. The JOURNAL has heard many favorable comments on the new course to be introduced this season.

A recent bulletin of the Census Office shows a decrease in the death rate of nearly 10 per cent, or of 1.8 persons per thousand per year. This means an increase in average longevity from 31.1 to 35.2 years. This increase is ascribed to medical progress and improved sanitary conditions.

The mail received by Admiral Schley who is now in Washington, is described as something unprecedented in the history of the hotel at which he is staying. Many of the letters are from strangers, and contain brief expressions of good will and hope for success. Admiral Schley sees few callers. He still declines to make any statement regarding his case.

The report of the Pension Bureau for the past fiscal year shows a net increase of pensioners of 4,206. Of these 3,849 were Spanish war sufferers, leaving a net increase due to the Civil War of 357. Considering that it is 36 years since the war was over, this fact is little less than marvelous. The total number now on the rolls is 997,735, or about one in 75 of the population of the whole country. This percentage would of course, be much higher, if the south where comparatively few pensions are granted, were eliminated.

Eleven hundred naval apprentices are now being cared for at the Newport Training Station. So popular has this become with boys that the Navy Department finds it impracticable to quarter more in the new barracks. There has been an increase in the number stationed at Newport the last 12 months of from 700 to 1,100, which gives the service the largest number of boys ever secured since the apprentice system was established. This increases the percentage of native born seamen in the navy to 91 per cent, larger than ever before.

Maumee has granted a franchise to the Home telephone company of Toledo to establish an exchange in Maumee. The same council refused to grant a franchise for a similar purpose to Mr. Tryon, a citizen and owner of the electric light plant of the village. Mr. Hillard of Perryburg had asked for a franchise but withdrew in favor of Mr. Tryon and it is reported that Mayor Smith who is supposed to hold the destiny of the village in the hollow of his left hand, relieved himself of the statement that he "didn't care if they gave a franchise to Tryon if he could make contract direct with the Central Union people, but he objected to anything that came through Perryburg; not even wanting fresh air from this town." Such a statement coming from such a large and important statement as Mayor Smith would indicate that he has all the AIR he needs, and that it is something besides air that he desires.

It took five or six men to keep Ed. Blue of the Perryburg Journal away from the Free Methodist Camp Meeting while attending the Republican county convention at Bowling Green last week. The convention and camp meeting were both in session in the grove near town.—Cygnet Review.

The great attraction for us at the above mentioned camp meeting was none other than Brother Crouch of the Review. We did not propose to leave him alone in a place wherein he was so great a stranger.

They Struck It Rich.

It was a grand thing for this community that such an enterprising firm as C. F. Champney's secured the agency for Dr. King's New Discovery for consumption, the wonderful remedy that has startled the world by its marvelous cures. The furor of enthusiasm over it has boomed their business, as the demand for it is immense. They give free trial bottles to sufferers, and positively guarantee it to cure Coughs, Colds, Bronchitis, Asthma, Croup, and all Throat and Lung troubles. A trial proves its merit. Price 50c and \$1.00.

Mrs. Thompson Entertains.

Mrs. J. P. Thompson, and Mrs. Orcutt of Defiance, gave a reception on Tuesday last at the home of Mrs. Thompson in Perryburg. The guests were received from 2 until 5 p. m., and were charmingly entertained. Mrs. Orcutt of Defiance, Mrs. Thompson of Perryburg, Mrs. Locke and Mrs. Smith of Austin, Texas, received the guests, while Miss Wedertz, presided at the punch bowl. Those who enjoyed the reception were: Meses. Asher Cook, Elsie Averill, Geo. Weddell, John Robertson, E. C. Lee, J. H. Rheinfank, C. Finkbeiner, Jas. Dunipace, Joe Brandhuber, Fred Eberly, N. SCHOOL NOTES.

All regular pupils of the Public school should remember to bring their "promotion cards" with them when they start for school next week. It is necessary.

Schools open next Tuesday. Monday is "Labor Day" and a legal holiday. Parents will oblige the Supt. of our school by buying NO BOOKS for their children until they are notified to do so by the teacher, or the Supt.

All children who are of school age, or who will be of school age before Jan. 1, 1902 can enter the FIRST grade on next Tuesday morning. Parents are requested to start their children at once. It is greatly to their advantage to begin when the NEW class begins.

The Supt. will be in his office to examine such pupils as have not attended Perryburg schools, also any who may have failed in one or two studies and have been making good attempts to make good such failures by faithful study either with or without help from some teacher.

Pupils should take to school with them the books they used when school closed last May. If you wish to sell such books as you may not use bring them and it may be the Supt. or the teacher can dispose of them for you.

Qualifications of Sea Captains.

On some of the foreign steamship lines the captains are naval officers, and, in case of war, would retain their commands. On the German steamers the officers must first serve a year or so in the naval reserve. On the French line each member of the crew must serve for a time on a vessel of war. On the majority of ships, however, the officers are men of the sea, who have fought their way up, step by step, entirely by merit, and not at all by favor. On the American line, even after a man has reached the rank of captain, he must pass a rigid examination every five years.—Collier's Weekly.

DOCTORS

say "Consumption can be cured." Nature alone won't do it. It needs help. Doctors say
